Ministry of the Interior and Safety

National Civil Defense Drill

A drill for an air raid warning

Evacuation of residents + Fire truck ambulance road marking

August 20, 2 PM, 20 minutes

- 2:00 PM, When the training air raid warning is issued, evacuate quickly.
- If you see a fire truck or ambulance while driving, make sure to yield.
- 2:15 PM, You can move from the shelter when the alert is issued

2:20 PM: Alert lifting!
Return to your usual activities.

In everyday life

Prepare thoroughly

Know the nearest and safest government-designated shelter.

Search for Civil Defense Shelters in the Maps App

KaKao Map | Naver Map | T Map | Emergency Ready app

You can check the shelter, location, area, and number of people

How to search for shelters

1. Search for a Shelter.
2. Click on the nearest Shelter.
3. Check location with Directions.

Packing a Go Bag

Bottled water, snacks, flashlight, first aid supplies, radio (batteries), toilet paper (wet tissue), raincoat, blanket, gas mask, rubber gloves, boots, plastic bag, etc

Once the air raid warning is issued,

Evacuate safely

When the alert is issued

Listening to the radio | Prepare to carry personal protective equipment | Suspension of business and preparation for evacuation (or evacuation)

If the air raid warning is issued

Evacuate immediately to a civil defense shelter or nearby underground facility

While driving
Stop on the right side of the road, evacuate, and listen to the radio.

Vacant lot nearby
Take the fire escape instead of the elevator.

If the fire safety alert is issued

Evacuation Procedures in Case of a Chemical Weapons Attack

High indoor location that can block outside air | If the wind blows toward the contaminated area, evacuate in the opposite direction of the wind. | If the wind blows toward me from a contaminated area, take shelter in a direction perpendicular to the direction the wind is blowing.

How to respond to biological weapons attacks

Protect the nose and mouth and evacuate or return to the designated place | Keep clean and cook for more than 15 minutes | Any suspicious mail is reported to the health center

If a nuclear alert is issued

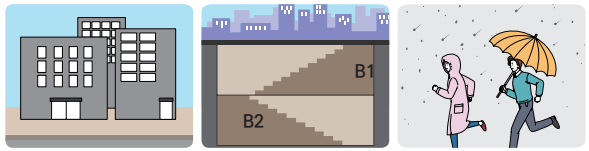
When the alarm goes off – evacuate immediately to the underground facility

subway station | Tunnel | underground shopping mall

If a nuclear bomb goes off – get down quickly

Regardless of the direction of the nuclear explosion, use the surrounding terrain to lie prone. Cover your eyes and ears, open your mouth, and avoid touching your stomach.

After nuclear detonation – radiation and fallout avoidance



Inside a concrete building | deep underground | Use a raincoat and umbrella when moving
